

Residential Building - Belgium

A cluster of 3 buildings - prepared a detailed engineering package

About Project

It was a cluster of 3 Buildings in which PGT's scope was to prepare the detailed engineering package (General Arrangement Drawings, Shop Drawings – Unit Drawings, and RC Drawings) and BBS. The total number of units was 1056 drawings. This project was detailed using AutoCAD. There were multiple design changes in this project which resulted in a lot of coordination with multiple stakeholders.
