

Iconic Airport Terminal & Underground Metro Station Project

Airport Project

Tonnage

- 2900 MT

Key Challenges:

- Critical geometry of the roof structure, with multiple architectural features
- Combination of rolled / built up circular sections, hence limitation on length of each part, considering the material availability.
- Skew pipe to pipe welded connections, resulting into, huge development work, for plates to be carried out.

Metro Project

Tonnage

- 3400 MT

Key Challenges:

- Long span trusses with Pre Camber
- Multilevel Struts
- Precast Panel Decking, which had to be interfaced, with the structural steel elements

About Us

Founded in 1999. We are a multi-disciplinary engineering solutions company with offices in the USA & India. Delivering BIM, Rebar, Steel, Precast, Plant Engineering Services & Solutions for Commercial, Industrial, Infrastructure & Residential Projects. Get in touch with us to help you boost your profitability, project delivery schedules with quality, and efficient engineering solutions across all your projects.

SECTORS

- Industrial
- Commercial
